BRAND WE WORK WITH

Our customers trust IBCC to deliver high-quality products and services on time and within budget, always.

Below is a **small selection** of some of the brands we work with. We achieve success by understanding clients' challenges and implementing our unique approach, which is centred around listening, comprehending their needs, and offering a range of solutions tailored to their requirements.

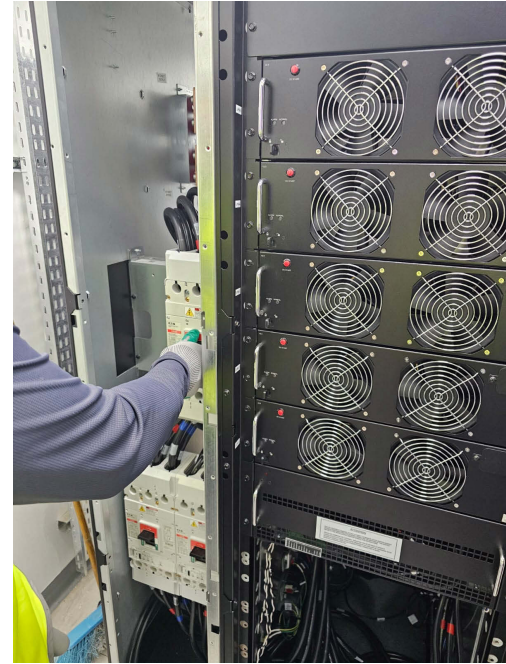

Our aim is to sell products & provide solutions with the help of our in house Power Consultants and Electricians.

Powering Business Worldwide

We understand the vital need for sustainable uptime and power continuity in today's business environments

Fast & Efficient

PROJECT MANAGEMENT FOR UNINTERRUPTED POWER

The complexities of power protection projects can mean you have to deal with several suppliers at once, need to use unfamiliar industry jargon and have limited idea on what is a realistic timescale. This is where our experienced project management services can step in by supporting the whole process and liaising with suppliers, so you only have to deal with us.

Offering Turnkey solutions

What do we mean by turnkey? At IBCC, it is about taking the time to truly understand your power protection needs. Ensuring you have the right uninterruptable power supply (UPS) solution for your business, so you don't have to worry. Giving you the assurance of business continuity, with a system that kicks in, just when you need it.

Our range of services is deliberately designed to allow you to use either the full power solutions package or select the services required. From simply supplying a UPS or one component, right the way through to completing site surveys and managing the whole project through to fruition – we are happy to operate to any level of support required and are practiced at getting things right, first time.

Our project management services include:

Power continuity planning & design

Site surveys

UPS health checks

Battery testing & replacement

Hire and rental

Factory witness testing

Logistics, location & relocation

Installation & commissioning

Maintenance & monitoring plans

Inspection, repair & upgrade

Warranties & extensions

Removal & recycling

SERVICE, SUPPORT & MAINTENANCE

UNMATCHED SERVICE, SUPPORT & MAINTENANCE

We operate a 24/7, 365 days a year support service to ensure that your business achieves maximum continuity. Whether this is by phone, email or on-site, we are here to assist.

Operating nationwide, our engineers are trained and certified (by the manufacturers whose equipment we supply). As a result, we have access to the latest complete UPS turnkey product training, hardware updates, spares and technical documentation to ensure your systems are the most robust and resilient they can be.

Comprehensive Maintenance Services

We understand the critical importance of maintaining your backup power systems. Regular maintenance not only ensures the reliability and efficiency of your equipment but also extends its lifespan, providing peace of mind and safeguarding your operations against unexpected power interruptions.

Preventive Maintenance

Regular Inspections: Our preventive maintenance program includes scheduled inspections to identify and address potential issues before they become critical.

Comprehensive System Checks

Visual Inspections: Detailed visual inspections to check for signs of wear and tear, corrosion, or any other potential problems.

System Testing: We perform thorough testing of all components, including batteries, inverters, and control systems, to ensure they are operating at peak performance.

Performance Metrics: Monitoring and recording of system performance metrics to identify trends and preemptively address potential issues.

Calibration and Adjustments: Fine-tuning and calibration of equipment to maintain optimal performance and efficiency.

Component Testing: Rigorous testing of individual components to ensure they are functioning correctly and efficiently.

Emergency Maintenance

24/7 Availability: Our maintenance team is available around the clock, 365 days a year, to respond to any emergency situations.

Rapid Response: We guarantee quick response times to minimise downtime and restore your systems to full operation as swiftly as possible.

On-Site Repairs: Our skilled technicians are equipped to perform on-site repairs, ensuring that any issues are resolved promptly.

**24/7: We are here for you at any time of the day or night
to assist with any issues you may have.**
